GENOME **GÉNOME**

Volume 34, 1991

Contents/Sommaire

FEBRUARY/FÉVRIER

ARTICLES

J. A. Anderson, C. Mousset-Déclas, E. G. Williams, and N. L. Taylor An *in vitro* chromosome doubling method for clovers (*Trifolium* spp.) 1

Shiv S. Prasad, Linda J. Harris, David L. Baillie, and Ann M. Rose Evolutionarily conserved regions in *Caenorhabditis* transposable elements deduced by sequence comparison 6

N. Sangines and M. Aguilera Chromosome polymorphism in *Holochilus venezuelae* (Rodentia: Cricetidae): C- and G-bands 13

J. A. Suja, J. de la Torre, J. F. Giménez-Abián, C. García de la Vega, and J. S. Rufas Meiotic chromosome structure. Kinetochores and chromatid cores in standard and B chromosomes of *Arcyptera fusca* (Orthoptera) revealed by silver staining 19

Kazuo Watanabe, Stanley J. Peloquin, and Masatoshi Endo Genetic significance of mode of polyploidization: somatic doubling or 2*n* gametes? 28

I. M. Ray and E. T. Bingham Inheritance of a mutable phenotype that is activated in alfalfa tissue culture 35

A. Endo, T. Watanabe, and T. Fujita An XXY sex chromosome anomaly in the mouse 41

C. J. Liu and M. D. Gale The chromosomal location of genes encoding NADH dehydrogenase isozymes in hexaploid wheat and related species 44

Q. Cai and M. R. Bullen Characterization of genomes in timothy (*Phleum pratense* L.). I. Karyotypes and C-banding patterns in cultivated timothy and two wild relatives 52

M. W. Humphreys and S. J. Dalton Stability at the phosphoglucoisomerase (PGI/2) locus in *Festuca arundinacea* plants regenerated from cell suspension and protoplast culture 59

Richard Condit and Stephen P. Hubbell Abundance and DNA sequence of two-base repeat regions in tropical tree genomes 66

C. Cuadrado, C. Romero, and J. R. Lacadena Meiotic pairing control in wheat–rye hybrids. I. Effect of different wheat chromosome arms of homoeologous groups 3 and 5 72

C. Cuadrado, C. Romero, and J. R. Lacadena Meiotic pairing control in wheat–rye hybrids. II. Effect of rye genome and rye B-chromosomes and interaction with the wheat genetic system 76

François Guidet, Peter Rogowsky, Christopher Taylor, Weining Song, and Peter Langridge Cloning and characterisation of a new rye-specific repeated sequence 81

Peter M. Rogowsky, Susanne Manning, Jin-Yuan Liu, and Peter Langridge The R173 family of rye-specific repetitive DNA sequences: a structural analysis 88

Fred G. Biddle, Brenda A. Eales, and Yutaka Nishioka A DNA polymorphism from five inbred strains of the mouse identifies a functional class of *domesticus*-type Y chromosome that produces the same phenotypic distribution of gonadal hermaphrodites 96

A. Errico, C. Conicella, and G. Venora Karyotype studies on *Pisum fulvum* and *Pisum sativum*, using a chromosome image analysis system 105

J. H. de Jong, F. Havekes, A. Roca, and T. Naranjo Synapsis and chiasma formation in a ditelo-substituted haploid of rye 109

E. Jongedijk, R. C. B. Hutten, J. M. A. S. A. van der Wolk, and S. I. J. Schuurmans Stekhoven Synaptic mutants in potato, *Solanum tuberosum* L. III. Effect of the *Ds-1/ds-1* locus (desynapsis) on genetic recombination in male and female meiosis 121

M. V. Kost, N. L. Bolsheva, N. S. Badaev, and A. V. Zelenin Regularities of *in situ* nick translation labeling pattern of cereal metaphase chromosomes 131

M. D. Lopez-Leon, J. Cabrero, and J. P. M. Camacho Distributive pairing in the grasshopper *Chorthippus binotatus* 139

Ernest D. P. Whelan Differential response to chilling injury of the group 6 chromosomes of cv. Chinese Spring wheat 144

P. M. Gaur and A. E. Slinkard Duplication of the structural gene for the plastid-specific isozyme of aldolase in *Cicer* 151

Frank N. Martin Linear mitochondrial molecules and intraspecific mitochondrial genome stability in a species of *Pythium* 156

Marjorie P. Maguire and Robert W. Riess Synaptonemal complex behavior in *asynaptic* maize 163

C. Juan and E. Petitpierre Evolution of genome size in darkling beetles (Tenebrionidae, Coleoptera) 169

NOTES

Pliny H. Hayes, Peter L. Davies, and Garth L. Fletcher Population differences in antifreeze protein gene copy number and arrangement in winter flounder 174

David Kenigsbuch and Yigal Cohen Erratum: The inheritance of gynoecy in muskmelon 177

Instructions to authors ix

Recommandations aux auteurs xi

APRIL/AVRIL

ARTICLES

R. Berger and J. Greilhuber C-bands and chiasma distribution in *Scilla siberica* (Hyacinthaceae) 179

U. C. Lavania, Sangeeta Srivastava, and J. Sybenga Cytogenetics of fertility improvement in artificial autotetraploids of *Hyoscyamus niger* L. 190

T. Robert, R. Lespinasse, J. Pernès, and A. Sarr Gametophytic competition as influencing gene flow between wild and cultivated forms of pearl millet (*Pennisetum typhoides*) 195

Masaru Iwanaga, Rosanna Freyre, and Gisella Orjeda Use of *Ipomoea trifida* (HBK.) G. Don germ plasm for sweet potato improvement. 1. Development of synthetic hexaploids of *I. trifida* by ploidy-level manipulations 201

Rosanna Freyre, Masaru Iwanaga, and Gisella Orjeda Use of *Ipomoea trifida* (HBK.) G. Don germ plasm for sweet-potato improvement. 2. Fertility of synthetic hexaploids and triploids with 2*n* gametes of *I. trifida*, and their interspecific crossability with sweet potato 209

A. Zacharopoulou, K. Bourtzis, and Ph. Kerremans A comparison of polytene chromosomes in salivary glands and orbital bristle trichogen cells in *Ceratitis capitata* 215

A. E. Dollin, J. D. Murray, and C. B. Gillies Synaptonemal complex analysis of hybrid cattle. II. *Bos indicus* × *Bos taurus* F_1 and backcross hybrids 220

A. E. Dollin, J. D. Murray, and C. B. Gillies Synaptonemal complex analysis of hybrid cattle. III. Meiotic pairing mechanisms in F_1 Brahman × Hereford hybrids 228

G. Hueros, J. M. Gonzalez, J. C. Sanz, and E. Ferrer Gliadin gene location and C-banding identification of *Aegilops longissima* chromosomes added to wheat 236

Hoang-Tang, Shyam K. Dube, George H. Liang, and Shain-Dow Kung Possible repetitive DNA markers for *Eusorghum* and *Parasorghum* and their potential use in examining phylogenetic hypotheses on the origin of *Sorghum* species 241

I. Tagarro, J. J. González-Aguilera, and A. Mª Fernández-Peralta *Taq*I digestion reveals fractions of satellite DNAs on human chromosomes 251

Zhou Shi-Qi, Qian De-Qi, and Cao Xiu-Yun Induction of parthenogenesis, and chromosome behavior in plants of parthenogenetic origin in cotton (*Gossypium hirsutum*) 255

M. Molnár-Láng, G. Galiba, G. Kovács, and J. Sutka Changes in the fertility and meiotic behaviour of barley (*Hordeum vulgare*) × wheat (*Triticum aestivum*) hybrids regenerated from tissue cultures 261

Jan Conn A cytogenetic analysis of the polytene chromosomes of *Anopheles triannulatus* (Diptera: Culicidae) from western Venezuela 267

Edzard van Santen, P. M. Hugessen, and M. D. Casler Identification and frequency of tetraploid progeny from 2*x*–4*x* and 4*x*–2*x* crosses in *Dactylis* 273

Brian E. Staveley, Arthur J. Hilliker, and John P. Phillips Genetic organization of the *cSOD* microregion of *Drosophila melanogaster* 279

Prem P. Jauhar Hybrid between durum wheat and diploid *Thinopyrum bessarabicum* 283

Srinivas Kambhampati and Karamjit S. Rai Mitochondrial DNA variation within and among populations of the mosquito *Aedes albopictus* 288

Srinivas Kambhampati and Karamjit S. Rai Temporal variation in the ribosomal DNA nontranscribed spacer of *Aedes albopictus* (Diptera: Culicidae) 293

NOTES

Stephen J. Molnar and Adèle McKay Restriction fragment analysis of ribosomal and hordein genes in eastern Canadian two-rowed barleys 298

M. Y. Wada, Y. Lim, and D. H. Wurster-Hill Banded karyotype of a wild-caught male Korean raccoon dog, *Nyctereutes procyonoides koreensis* 302

Bai Xiong and Thomas D. Kocher Comparison of mitochondrial DNA sequences of seven morphospecies of black flies (Diptera: Simuliidae) 306

JUNE/JUIN

ARTICLES

Sandra J. Primad, Rosalind Morris, and Charles M. Papa Cytogenetic studies on a heterozygous reciprocal translocation in wheat (*Triticum aestivum*) cultivar Atlas 66 313

Trude Schwarzacher and J. S. Heslop-Harrison *In situ* hybridization to plant telomeres using synthetic oligomers 317

O. G. Ward, A. S. Graphodatsky, D. H. Wurster-Hill, V. R. Eremina, J. P. Park, and Q. Yu Cytogenetics of beavers: a case of speciation by monobrachial centric fusions 324

I. J. Leitch, A. R. Leitch, and J. S. Heslop-Harrison Physical mapping of plant DNA sequences by simultaneous *in situ* hybridization of two differently labelled fluorescent probes 329

M. J. Mahony Heteromorphic sex chromosomes in the Australian frog *Crinia bilingua* (Anura: Myobatrachidae) 334

J. W. O. Ballard and D. G. Bedo Population cytogenetics of *Austrosimulium bancrofti* (Diptera: Simuliidae) in eastern Australia 338

E. L. Lubbers, K. S. Gill, T. S. Cox, and B. S. Gill Variation of molecular markers among geographically diverse accessions of *Triticum tauschii* 354

K. S. Gill, E. L. Lubbers, B. S. Gill, W. J. Raupp, and T. S. Cox A genetic linkage map of *Triticum tauschii* (DD) and its relationship to the D genome of bread wheat (AABBDD) 362

E. S. Lagudah, R. Appels, A. H. D. Brown, and D. McNeil The molecular-genetic analysis of *Triticum tauschii*, the D-genome donor to hexaploid wheat 375

E. S. Lagudah, R. Appels, and D. McNeil The *Nor-D3* locus of *Triticum tauschii*: natural variation and genetic linkage to markers in chromosome 5 387

Hedi Baatout, Daniel Combes, and Mohamed Marrakchi Reproductive system and population structure in two *Hedysarum* subspecies. I. Genetic variation within and between populations 396

Diana M. Stone, Peter B. Jacky, and David J. Prieur The Giemsa banding pattern of canine chromosomes, using a cell synchronization technique 407

Fouzia Bani-Aameur, F. I. Lauer, R. E. Veilleux, and A. Hilali Genomic composition of 4*x*-2*x* potato hybrids: influence of *Solanum chacoense* 413

P. G. Goicoechea, A. Roca, A. R. Linde, T. Naranjo, and R. Giraldez Independent arrangement of bivalents and (or) quadrivalents in linear meiotic metaphase plates of rye 421

Rick Kesseli, Oswaldo Ochoa, and Richard Michelmore Variation at RFLP loci in *Lactuca* spp. and origin of cultivated lettuce (*L. sativa*) 430

M. Heun, A. E. Kennedy, J. A. Anderson, N. L. V. Lapitan, M. E. Sorrells, and S. D. Tanksley Construction of a restriction fragment length polymorphism map for barley (*Hordeum vulgare*) 437

Y. Mukai and B. S. Gill Detection of barley chromatin added to wheat by genomic *in situ* hybridization 448

R. N. Chibbar, K. K. Kartha, N. Leung, J. Qureshi, and K. Caswell Transient expression of marker genes in immature zygotic embryos of spring wheat (*Triticum aestivum*) through microprojectile bombardment 453

J. E. Endrizzi and D. T. Ray Linkage analysis of open bud (ob_2) and yellow petal (Y_1) in cotton 461

Antonio Brehm, Costas B. Krimbas, John Sourdis, and Marie-Louise Cariou The phylogeny of nine species of the *Drosophila obscura* group inferred by the banding homologies of chromosomal regions. I. Element B 464

Suzanne Demas and Stephen Wachtel DNA fingerprinting in reptiles: Bkm hybridization patterns in Crocodilia and Chelonia 472

M. H. Yu, L. M. Pakish, and J. W. Saunders Association of a nematode resistance bearing addition chromosome with a recurring leaf intumescence somaclonal variation in sugar beet 477

TECHNIQUE

Cedric E. May and Fiona Wray A rapid technique for the detection of wheat-rye translocation chromosomes 486

NOTES

Patricia P. Rabenold, Walter H. Piper, Mark D. Decker, and Dennis J. Minchella Polymorphic minisatellite amplified on avian W chromosome 489

X. Zhu, L. A. Burgoyne, and J. D. Skinner The interspersed DNA repeat conserved in water birds' genomes 493
